1. The performance must have been done on a recognised certified track. Circles, pits and jumping and throwing areas must comply with IAAF specifications. Throwing implements and hurdle specifications must comply with those set out in these By-laws.
2. For 60m, 100m, 200m and hurdles, the wind velocity, measured in the direction of running, behind the athlete must be 2 metres per second or less. If there is no wind reading, the officials must use their own judgement for the strength of a tail wind.
4. For a track event that is manually timed, the performance must be timed by 3 stop-watches and calculated according to rule 165 (IAAF competition rules).
5. A graded official, or a Level 1 Athletics NZ coach must verify the performance.
7. A record broken at an event not affiliated with an athletics club is allowed, as long as the event meets the above criteria. Therefore a national or regional secondary school event may be acceptable. Note - local primary and intermediate interschool athletics are not usually run by graded officials or according to IAAF specifications.
8. The athlete must be a financial member of Athletics Nelson Junior Track Club.
